

2018 Mission Teams in The Episcopal Diocese of the Dominican Republic

We are very grateful for the tremendous work these missionary groups do in our diocese. Through their testimony, they offer us a true example of what fellowship means in mission.

The Rt. Rev. Moisés Quezada Mota

Dominican Development Group Information Flyer - Poster of the 2018 Mission Teams

The group photographs of all of the missionaries and the mission teams that worked in the Episcopal Diocese of the Dominican Republic in 2018 are now available in a poster format. This poster is ideally sized for printing in a 20"X30" format. The poster source files in several resolutions and in both PDF and JPG formats are available online at these links:

Low Resolution: a jpeg ideally suited for emailing

High Resolution: a jpeg ideally suited for printing

The individual photographs are also online in a Google Photos album as part of the DDG's photograph archive here:

Some commercial printers require either jpeg or pdf format. Both are available for your use. Since 20"X30" format printing usually requires a commercial printing facility, these files may be downloaded from the DDG website and then uploaded to on-demand online printers such as Walgreens, Walmart, FedEx, UPS Store, and Office Depot/Office Max. The 20"x30" size is a common poster size and in-expensive ready-to-use frames should be readily available.
