

Mission Team Office Report  
Dominican Development Group Meeting  
February 11, 2019

According to the instructions of Bishop Moisés, the mission office must continue working effectively as have been doing since now, focus in the objective why has been create: to contribute locally with the arrangements of the teams that come to our diocese, since they are coming to accompany and share the development of the mission of the Church in the Dominican Republic. Ensure good communication between the clergy, the local congregation and the brothers in mission, as well as security, fraternity and the achievement of the team's goals.

For me, it is an honor to be in the service of my Church, and above all to be a channel to facilitate the love of God manifesting in the mercy and brotherhood between brothers and sisters of different cultures but that have in common, their dedication to love and serve the same God, serving others.

Now we have new expectations with the integration of Miquea Saintivil, who together with Charlie Nakash will be reinforcing our follow-up tasks to the teams, especially construction. Miquea is a capable young man. As you know, we will have the GEMN Conference at the DR, next April. We have been supporting planning team as well. There are very good expectations of the visitors coming. We are happy to see how blessed we are and how together we could continue developing God work in this beautiful country.

In 2018 we had 50 missionary teams and visitors coordinated by this office. This year we have 29 teams in the calendar and 15 team leaders requesting information to decide the date and place to come.

We know that God works in mysterious ways. We thank God for the Snows, for Karen and for each of you who support our mission in this Diocese.

Yours in Christ,

Patricia Martin
